

## Intervention Planning Template

For Small Groups or Individuals

<b>Student name(s) and Classroom Teacher</b>	
<b>Assessments Used to Collect Information</b>	
<b>Start Date/ End Date of Intervention</b>	
<b>Location, frequency and person responsible</b>	
<b>Goal</b>	High Leverage Concept:
<b>Learning Targets</b>	After the intervention the student will be able to (Use High Leverage Progressions):
<b>Critical Strategies and Models to Prioritize</b>	
<b>Next Steps</b> <i>Assessments to administer, skills that should be prioritized when assessments are administered, possible ideas for next targeted intervention, notes about social/emotional behavior to follow up on or consider when designing a new intervention</i>	

Notes:

- *Include notes that address any relevant social/emotional observations*
- *Include notes that address overall engagement*
- *Examine class work for evidence that shows what the student CAN do rather than what they can't yet do*
- *Make examples specific by describing the work (which math story problem type)*
- *Include student quotes when possible*
- *Consider jotting a quick note about evidence each week rather than at the conclusion of the intervention*
